Hello,

The US EPA has prepared the following information resource:

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>
Regular updates will be posted as they are available.
EPA Hotline: 844-607-9700 (toll-free)

Hello Mr. David Ostrander, I see things are not going too well for the EPA, don't worry it will be okay, I am a designer/consultant, I would like to be a part of your think tank, I know if we work together we can get this done. I have some great ideas that I know you and your staff will like. I believe it would be a great asset along with some of your great ideas. I see you and your teams are searching high and low for an alternative solution on how to clean this acidic wastewater up as fast as possible; I have some designs that will help the E.P.A clean this wastewater out of the rivers. Please contact me A.S.P and I will send you a contract. Thank you for your time

God bless you and your family.
Thank you for your consideration.
Sincerely
Larry Price
